➤ Objective

Looking forward to an opportunity for working in a dynamic, **challenging environment**, where I can utilize my skills for developing my career and for the growth of the organization.

➤ Academic Qualification

- **B.E.** from **Sant Gadge Baba Amravati University** with **9.13** (CGPA) in 2020.
- 12th Science from Maharashtra State Board with 55.67% in 2011.
- 10th from Maharashtra State Board with 62.30**%** in 2009.

➤ Technical Qualification

- **Programming Languages:** C, Python;
- **Web Technologies:** HTML,CSS, Javascript;
- **Databases:** MySQL, NoSQL, MongoDB;
- **Tools:** Wordpress;
- **Frameworks and Libraries:** Django, ReactJS;
- **Operating System:** Windows, Linux;

➤ Academic Project

- **Project name:** Image Caption Generator
- **Language of implementation:** Python
- **Operating system:** Windows
- **Description:**
  Caption generation is a challenging artificial intelligence problem where a textual description must be generated for a given image. We used deep learning techniques of Convolutional Neural Networks and a type of Recurrent Neural Network (LSTM) together to build a model capable of generating captions for an image.

➢ **Certification**

- **Cognitive Class**
